

Youth 1

2024-10-17 torsdag

Meeting notes from the enrollment interview

Information for the follow-up framework:

Arrived in Sweden 2018

Tigrinya, Arabiska

Swedish citizen

Has no children

Samuels current situation:

Has received extensive support from his mentor when he lived in a supported housing, has already received a significant portion of the support we provide to others, and has made great progress in preparing to live independently.

Currently lives in a youth apartment, has a first-hand lease from Gothenburg city's housing agency for 3 years.

Has already started the third year of the economics program in high school.

Had a summer job at Max last year and at Postnord this year. Wants to work in a café or restaurant in the future alongside his studies.

No driver's license, but wants to seek support from CSN to obtain a driver's license and buy a car.

Samuel wants help with:

Finding a job

School

Homework help (was informed that we have homework assistance at the office every Wednesday evening)

Contact with healthcare

To Emma/Sara:

Samuel requested to meet with a support person regularly, at least once every two weeks, and that he is open to receiving support in multiple areas of life; I mentioned that I think he has already made considerable progress. He said that he can imagine that additional issues may arise that he would like help with, beyond what has been mentioned above. So I think we start with a support person and then see how his needs develop. I also mentioned the option of using us coordinators for one-off interventions, a couple of sessions until he feels satisfied, but he insists that he needs long-term support with a dedicated support person. He himself suggested meeting with one of you for job search when I am away if we cannot match him with a support person right now.

What we did during our meeting was:

Parts of the baseline assessment + the above conversation

Clarified some aspects regarding booking healthcare and rehabilitation, and called the driving school

Looked into some cafés where he wants to work, registered him there, and went over what he needs to consider further before potentially starting work there (he prefers working in a café rather than fast-food restaurants)
